# Abhay Tukaram kondalkar

*Software Test Engineer | Manual & Automation Tester (Selenium, Java, API, SQL)*

✉ abhaykondalkar10@gmail.com  📞 9172016216  📍 Kharadi, Pune  in Abhay-Kondalkar

## PROFESSIONAL SUMMARY

**Detail-oriented Software Test Engineer (Manual & Automation)** with around 3 years of experience in **Manual, Selenium, and API Testing**. Skilled in **Selenium WebDriver with Java, TestNG, and Cucumber (BDD)** for automation scripting. Hands-on with **Postman** for API validation and basic **SQL** for data verification. Strong understanding of **SDLC, STLC, Agile (Scrum)**, and defect tracking using **JIRA**. Hands-on practice in designing **POM** and **Data-Driven frameworks** using **Selenium** and **TestNG**, with good understanding of **cross-browser** and **regression testing** concepts. Committed to delivering **high-quality, defect-free releases** through continuous process improvement.

## CORE COMPETENCIES & TECHNICAL SKILLS

- **Testing Types:** Functional, Regression, Smoke, Sanity, GUI, Compatibility, Integration, System Testing
- **Automation Tools:** Selenium WebDriver, TestNG, Maven, Cucumber (BDD), Page Object Model (POM)
- **Programming & API:** Java (Basic), Postman (Manual API Testing), JSON/XML Validation, REST API Testing
- **Database:** MySQL, SQL Queries, Joins
- **Defect Management:** JIRA, Defect Lifecycle
- **Version Control & CI/CD:** Git, GitHub
- **Agile & Documentation:** SDLC, STLC, Agile (Scrum), Sprint Planning, Test Strategy, Test Plan, Test Summary Reports, Test Closure Report, Defect Tracking, Sprint Retrospective
- **Browsers & Platforms:** Chrome, Firefox, Windows

## MEASURABLE ACHIEVEMENTS

**Manual Test Engineer**                                                                                               02/2023 – Present
*XDBS Worldwide*                                                                                                                          Pune

- **Tested CRM modules**, including Admin, Developer, and Tester, across **internal company projects** such as **Circle of Crust (COC), WayMedia, and Villas by Noor**, using structured manual test cases and scenarios.
- **Applied Data-Driven and Page Object Model (POM) testing concepts** to improve test reusability and reduce maintenance effort.
- **Performed Functional, Regression, and UI testing** across browsers (**Chrome, Firefox, Edge**), ensuring coverage of core workflows.
- **Conducted manual API testing using Postman**, validating API endpoints and response status codes.
- **Verified UI elements** and performed **cross-browser compatibility checks** to ensure a consistent user experience.
- **Collaborated with developers using JIRA** for defect tracking, improving issue turnaround time by 20%.
- **Participated in Agile ceremonies** (stand-ups, sprint planning, retrospectives) to align testing goals with sprint objectives.
- **Prepared Test Summary Reports** and uploaded **test documentation** for team reference, ensuring transparency and traceability.

## EDUCATION

**Bachelor Of Science**                                                                                                         2022 – 2023
*Singhania University*

**HSC**                                                                                                                                 2015 – 2016
*Savitribai Phule Pune University*

## AWARDS

**Employee of the Quarter**
*XDBS Worldwide(2024)*
Recognized with **"Star Performance" award** for **outstanding QA contributions**, **maintaining zero critical defects**, and **driving effective testing processes** across multiple sprint releases.
